

How long does Coinbase take to reply?

Coinbase support can take anywhere from a few hours to several days to respond, with general inquiries often receiving a reply within 24 to 48 hours. Response times can vary significantly depending on the volume of tickets and the complexity of the issue. For urgent matters, it is recommended to use their phone or live chat support for potentially faster assistance.

Response time factors

- Ticket volume: During busy periods in the crypto market, support responses may be delayed.
- Issue complexity: Simple issues may be resolved faster than complex ones.
- Contact method: Live chat can often provide responses in minutes, while email responses may take longer.
- Coinbase One members: Members of this plan may receive faster responses via priority email or live chat.

How to get faster support

- Call or use live chat: For urgent issues, contact Coinbase via phone or live chat, as this is often faster than waiting for an email response.
- Submit detailed tickets: Include all relevant information, such as transaction IDs and screenshots, to help speed up the resolution process.
